Please adopt the MTP 2035. I am very supportive of projects that will improve access to downtown Sacramento from North Natomas, particularly the Downtown-Natomas-Airport rail extension MOS2 and the bike/pedestrian bridge over I-80 at the West Canal. I believe that these two projects, plus any work done to improve the safety of pedestrians and bicyclists, reduce vehicle speeds on local streets and arterials, and improve mobility and access for non-motorized modes will provide great returns to the communities that comprise the region in which we live.
