January 13, 2006

Gregory Chew
Community Designer/Program Manager
Sacramento Area Council of Governments
1415 L Street, Suite 300
Sacramento, CA 95814

Dear Mr. Chew:

Community Medical Centers, Inc. is pleased to support the Esparto downtown revitalization planning project that Yolo County and its partner Capay Valley Vision have submitted for consideration for funding by the SACOG Community Design Fund grant program. We have worked with Yolo County and Capay Valley Vision for the past several years to enhance services and to improve the quality of life for residents of Esparto, and we believe that our shared vision in future planning will lead to a downtown Esparto that is a model of SACOG's seven smart growth blueprint principles.

The project outlined in this application is exciting and consistent with the ideals shared by the many community partners who truly have the community's future at heart. We believe it will serve as a catalyst for the creation of well-designed, mixed-use buildings that preserve downtown Esparto's historic structures and emphasize the agricultural character of the area. Integrating quality compact housing units that are affordable to working families and independent seniors with downtown development is another key goal of this effort.

Because of the population growth and the long time that the downtown area has been dormant, we are all eager to embrace a planning process that will lead to the rebirth of both regional businesses and a multi-purpose community center for health and social services. We look forward to the opportunity to participate in the planning process.

Sincerely,

Michael Kirkpatrick, CEO
